To start a command prompt as an administrator - Windows 7, Vista

1. Click **Start**, click **All Programs**, and then click **Accessories**.
2. Right-click **Command prompt**, and then click **Run as administrator**.
3. If the **User Account Control** dialog box appears, confirm that the action it displays is what you want, and then click **Continue**.

To start a command prompt as an administrator - Windows 10

The Power User Menu is a much faster way to get to Command Prompt in Windows 10 but only if you're using a keyboard or mouse.

Just choose **Command Prompt** from the menu that appears after pressing **WIN+X** or right-clicking on the **Start button**.

For command Prompt as Administrator choose **Command Prompt (Admin)**

To start a command prompt as an administrator - Windows (Other)

If the above doesn't feature your windows OS version try
